PROFESSIONAL SUMMARY

Electronics and IT professional with formal training in circuit-board-level diagnostics, PCB design, and hardware troubleshooting, combined with active casino industry experience. Currently supporting slot operations at Great Blue Heron Casino as a Site Auditor with working knowledge of AGCO regulations, RTMS, NRT systems, and Internal Control Manual procedures. Proven track record of structured fault-finding, preventative maintenance, and minimizing downtime in regulated, high-volume environments. Seeking to apply technical expertise as a **Full-Time Slot Technician at Great Canadian Toronto**.

CORE SKILLS

- PCB & Component-Level Troubleshooting
- Slot & Casino Gaming Systems (RTMS, NRT)
- Firmware / Software Setup & Verification
- AGCO Regulations & Internal Controls
- Jackpot Inspection & Tamper Verification
- Microsoft Office & Slot Management Tools
- Hardware Diagnostics & Fault Isolation
- Hardware Install, Config & Testing
- Soldering, Multimeter & Oscilloscope
- Preventative Maintenance & Repair Logs
- Technical Documentation & Service Logs
- Customer Service in Gaming Environments

WORK HISTORY

Site Auditor (Part-Time) | *Great Blue Heron Casino & Hotel – Port Perry, ON* Oct 2025 – Present

- Perform daily, weekly, and monthly audits across Slots, Cage, Table Games, Sportsbook, F&B, and Hotel operations in full compliance with AGCO regulations, OLG requirements, and internal controls.
- Audit slot machine revenue, RTMS reports, and NRT (Note Redemption Terminal) activity for accuracy, integrity, and evidence of tampering — directly supporting the Slot Technician team during flagged-machine investigations and jackpot verifications.
- Verify cage transactions, table game documentation, sportsbook reports, and associated electronic gaming systems.
- Prepare, validate, and submit End-of-Day (EOD) OLG files, ensuring data accuracy and on-time regulatory reporting.
- Identify variances, investigate discrepancies, and document findings in detailed audit reports for Slots, Surveillance, and IT teams.
- Maintain strict confidentiality while handling sensitive gaming, financial, and system information.

IT Infrastructure Support Analyst | *Canada Revenue Agency (CRA) – Toronto, ON* May 2023 – Dec 2024

- Diagnosed and resolved hardware, software, and system issues using BMC Helix Remedy ticketing system, achieving a 95% first-contact resolution rate while minimizing operational downtime.
- Applied structured troubleshooting and fault-isolation methodologies — the same diagnostic discipline required for electronic and slot-related systems.
- Installed, configured, and tested system components and authentication hardware to ensure functionality, integrity, and operational reliability.
- Prioritized and managed IT service tickets based on incident severity, business impact, and SLA requirements.
- Maintained detailed service records, incident logs, and resolution documentation in compliance with internal controls and ITIL best practices.

IT Analyst | *City of Toronto – Toronto Water – Toronto, ON*

Jan 2023 – Jun 2023

- Supported troubleshooting and resolution of technical issues, contributing to a 40% reduction in service interruptions.
- Reviewed system and application logs to identify recurring issues, error patterns, and potential risks impacting availability.
- Verified system configuration accuracy and performed integrity checks to ensure compliance with internal standards.
- Maintained and updated technical documentation, system procedures, and access records to support operational continuity.
- Collaborated with cross-functional teams to resolve operational and technical issues efficiently.

Casino Cage Cashier (Part-Time) | *Pickering Casino Resort – Pickering, ON*

Aug 2022 – Sep 2023

- Worked within a regulated AGCO environment with daily exposure to the live slot floor, including IGT, Aristocrat, Konami, and Bally / Light & Wonder machines.
- Handled and reconciled NRT (Note Redemption Terminal) transactions and supported electronic gaming system workflows.
- Identified and escalated equipment and system irregularities impacting slot floor operations.
- Maintained accurate records and documentation with zero reconciliation discrepancies.
- Delivered high-level customer service while supporting gaming floor operations.

Assistant Accountant | *Aroma Diligence Inc. – Negombo, Sri Lanka*

Apr 2020 – Apr 2022

- Conducted detailed reviews of financial records, applying analytical troubleshooting skills.
- Documented discrepancies and supported internal audits requiring precision and compliance.
- Developed strong documentation and reporting discipline transferable to technical repair logs.

Customer Service Representative (Part-Time) | *Esso – North York, ON*

May–Aug 2022; Jan 2025 – Present

- Provided front-line customer support while handling POS systems with transaction accuracy.
- Assisted with training new staff on operational systems and procedures.

EDUCATION & CERTIFICATIONS

Advanced Diploma — Computer Engineering Technology | *Seneca College of Applied Arts & Technology – North York, ON*

Jan 2022 – Dec 2024

Relevant Coursework & Technical Training: Electronics Fundamentals (Analog & Digital Circuits) •

Microprocessors & Embedded Systems • Computer Hardware Diagnostics & Repair • PCB Design, Layout & Routing using PADS (Siemens EDA) • Schematic Capture & Design Rule Checks • Signal Integrity & Hardware Troubleshooting • Networking & System Interfaces.

Lab Tools: Multimeters, oscilloscopes, soldering equipment, PADS (Siemens EDA), Microsoft Office, and technical documentation tools.

Certifications

- CCNAv7: Switching, Routing, and Wireless Essentials — Cisco Networking Academy (May 2024)
- (ISC)² Certified in Cybersecurity (CC)
- ITIL v4 Foundation (In Progress)

SYSTEMS & TOOLS

Casino & Gaming: RTMS, NRT (Note Redemption Terminals), Bally Cage, KAMBI Sports Betting, OLG EOD Reporting.

ITSM / Enterprise: BMC Helix Remedy, BMC Helix Fusion, BigFix, Citrix, Active Directory.

Electronics Design: PADS (Siemens EDA) for schematic capture, PCB layout, and routing.

ADDITIONAL QUALIFICATIONS

- Able to lift up to 50 lbs and safely move heavy gaming equipment (100–800 lbs) using proper material handling equipment.
- AGCO Gaming Registration eligible — currently registered through active casino employment.
- Open availability: comfortable working evenings, weekends, holidays, and overnight shifts.
- Willing to travel to other Great Canadian properties as required.
- Strong team player with professional communication and a customer-focused approach.
